Measurement range: 0.05 – 80 m
 Measurement accuracy: $\pm(2 \text{ mm} + D \cdot 1/10,000)$, units: mm/in/ft
 Functions: continuous measurement, area measurement, volume measurement, calculation of the third side using Pythagoras' theorem, LCD FSTN, addition/subtraction, max./min. measurement
 Memory: up to 100 values, four-line LCD FSTN display with backlight
 Laser wavelength: 630 – 670 nm
 Operating temperature: 0 – 40°C
 Dimensions: 112 × 50 × 25 mm
 Weight: 90 g
 Included accessories: carrying case, 2 × AAA alkaline batteries

Professional high-performance drill bits with premium TiAlN coating

- TiAlN (Titanium Aluminum Nitride) premium PVD coating with very high hardness
- Exceptional thermal resistance
- For highly demanding applications – machining stainless and hardened steels
- Extreme durability, reduced friction, improved heat dissipation
- Significantly extended tool life

FESTA
INDUSTRY

- Premium HSS-Co5 steel – 5% cobalt
- High heat resistance and cutting performance
- Suitable for stainless steels, steel alloys, cast iron, and other tough materials

Centering tip with optimized geometry for precise guidance, minimal friction, and smooth entry into the material

• Perfect centering without the need for pre-drilling

• Reduced risk of slipping on smooth and curved surfaces

• Smooth and easy cut without vibrations

• Fast material penetration and longer tool life

• Comfortable work with less fatigue during multiple holes

- High-quality HSS (High-Speed Steel) with TiAlN coating
- Excellent for sheets, profiles, and thin-walled materials, including stainless steel

4 CUTTING EDGES

The cross tip, made of four cutting edges, ensures fast engagement and precise drill guidance without slipping.

Stabilizes the drill in the material and ensures clean, precise holes, improving penetration even in hard concrete.

The cross-tip geometry reduces material chipping and increases drilling speed.

4 FLUTES

The four-flute spiral with a wide flute entry facilitates efficient removal of large volumes of drilled material.

Reduces friction and increases drilling speed in hard materials.

Minimizes vibrations and extends drill life.

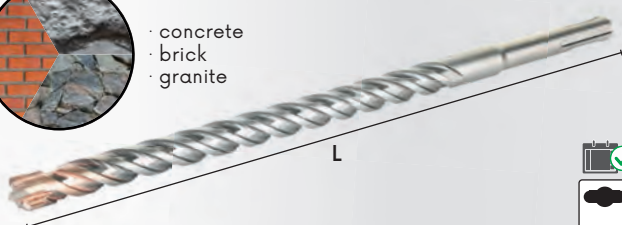

Optimized four-spiral geometry facilitates drilling deeper holes without jamming.
